Gift guide: Cool items for the techie in your life

Bluetooth SleepPhones

Help someone get a good night's sleep with AcousticSheep's wireless headphone headband. These cozy SleepPhones are Bluetooth-enabled, allowing users to relax and fall asleep to music without the danger of wires. All that's needed is a Bluetooth music player within 15 to 30 feet. Built-in volume control and a play/pause feature add convenience.

There's even a variety of free downloadable playlists available on the SleepPhones Web site to help kick off the slumber party. \$99.95
